Recommendations for
Limited Observations
of Control Species

REFERENCE:

FROM: A. W. Hook

TO: C. E. Taylor

Attached you will please find a letter which I requested
of Dr. McCune during the recent A.P.C.A. meeting.

1. You will note that Dr. McCune makes a comment relative
to the symptoms of fluorosis on vegetation.
2. He makes some suggestions pertinent to the selection and
periodical observations of controlled species. No action will be
taken on this suggestion until some directive is made from the
management team.
3. You will note that charges are to be paid to Dr. McCune.
No action is taken in this matter, because the writer is not aware
of what procedure should be followed in order to pay Dr. McCune.
